

Introducing
Power Shredders

Don't let your data land in wrong hands. Secure it with Pitney Bowes.

Secured Data Destruction

Data security is a critical component in any organizational strategy. Secured destruction of data, whether physical or digital, is gaining increasing importance in today's corporate world. Organizations see the merit of safeguarding data from landing into wrong hands once it becomes redundant. Confidential records like CD's, Hard Disks, files, documents, etc. if not properly destroyed can lead to unsolicited retrievals by competitors.

Today secured destruction of data is critical in sectors like Banking, Financial Services, Insurance, Telecom and Government where transactional documents are enormous and organizations need to put stringent security measures not just to protect but also to securely destroy the data.

Pitney Bowes, a global leader in mailstream and document management technology in association with world leader Martin Yale brings a wide range of Shredders to match every organizations needs.

These shredders start from a range for executive cabins amidst large industrial houses, and are capable of destroying data in the form of books, files, paper sheets, floppies, CD's stapled papers etc within no time.

A perfect range of
power shredders:
Physical destruction of data

Paper Monster : The range for your homes and small offices

An ideal way to safeguard your discarded data from executive desks or cabins. Just replace your paper dustbins with paper monster to ensure that the discarded data is shredded straight away. The compact and elegant looking paper monster shredders are ideal suited for Home, Executive Cabins, ATMs and Departmental Store etc.

Key Features of Paper Monster Range:-

- Ideal for professional and personal use.
- Portable and user friendly.
- Comes in compact shapes and elegant designs.
- Easily slides below the desk, thus saving space.
- Shred paper with staple pins and paper clips.
- Reliable and proven technology.
- Made of shock resistant, recyclable plastic.

Paper Monster Range

Model Name	M110	L220
Cutting size paper (mm)	4 x 40 mm	4 x 39 mm
Shredding capacity 80 g/m ² (sheets):	6 sheets	12 sheets
Cutting speed 80 g/m ² (m/sec.):	0.06 m/sec.	0.05 m/sec.
Cutting speed 80 g/m ² (sheets/min.):	72 sheets/min.	121 sheets/min.
Catch basket volume (l):	111	221
Noise level (db (A)):	64 db(A)	
Width (cm):	29 cm	36.5 cm
Depth (cm):	14.2	28 cm
Height (cm):	35 cm	50 cm

Intimus Pro – The heavy duty office shredders

The Intimus Pro shredder is a superlative waste manager that easily works with large volumes of data and provides effective data protection throughout the organization. The Intimus Pro Solid Cutter facilitates simplified shredding of paper without removing clips and paper jams. This shredder functions in an error free mannerism and efficiently shreds large and unevenly arranged paper stacks replete with paper accessories.

Key Features of Intimus Pro Range:-

- High speed with high security.
- Low noise.
- Destroys paper, CDs, DVDs, Staples, Paper Clips, Plastic cards.
- Separate cutting block for digital media.
- Dust proof cabinet.
- Trendy design.

Intimus Pro range of shredders are ideally suited for Banks, Broking firms, Telecom, Insurance companies, Defense, Universities or any Organization wanting to add a layer of security to their discarded data.

Intimus Pro Range

Model Name	3000 CC	26CC3	32 CC3	45 CC3	45 SC2	45 CC4	60 CC3	120 CC3	120 SC2	120 CC4	175 CC3	175 SC2	852 (Intimus Recycle)
Cutting size paper (mm)	3.8 x 42 mm	4 x 28 mm	4 x 28 mm	3.8 x 30 mm	3.8 mm	1.9 x 15 mm	3.8 x 30 mm	3.8 x 36 mm	5.8 mm	1.9 x 15 mm	4 x 46 mm	3.8 mm	3.8 x 40 mm
Shredding capacity 70 g/m ² (sheets):	16 sheets	10 sheets	14 sheets	18 sheets	24 sheets	13 sheets	18 sheets	23 - 25 sheets	35 - 38 sheets	15 - 17 sheets	50 - 55 sheets	40-45 sheets	70 - 80 sheets
Cutting speed 70 g/m ² (m/Sec.):	97 sheets/m/sec.	0.06 m/sec.	0.06 m/sec.	0.08 m/sec.	0.08 m/sec.	0.08 m/sec.	0.08 m/sec.	0.14 m/sec.	0.14 m/sec.	0.14 m/sec.	0.1 m/sec.	0.12 m/sec.	0.24 m/sec.
Shredding capacity 80 g/m ² (sheets):	15	9 sheets	12 sheets	16 sheets	21 sheets	11 sheets	16 sheets	21 - 23 sheets	33 - 36 sheets	13 - 15 sheets	43 - 47 sheets	35 - 40 sheets	65 - 75 sheets
Cutting speed 80 g/m ² (m/Sec.):	91 sheets/min	0.06 m/sec.	0.06 m/sec.	0.08 m/sec.	0.08 m/sec.	0.08 m/sec.	0.08 m/sec.	0.14 m/sec.	0.14 m/sec.	0.14 m/sec.	0.1 m/sec.	0.12 m/sec.	
Working width (mm):	230	235 mm	240 mm	260 mm	260 mm	260 mm	260 mm	310 mm	310 mm	310 mm	405 mm	405 mm	441 mm

Intimus Power – The powerful heavy duty industrial shredders

Intimus@POWER integrates an enhanced union of novel ideas, latest technology coupled with first rate quality to bring up a high capacity and reliable shredder that operates safely to disintegrate large volumes of data. These ranges of data destruction models have progressed in accordance with desired levels of security and capacity and perform optimally for maximum productivity.

Key Features of Intimus Power Range:-

- Perfect feeding methods.
- Processes smooth and crumbled paper identically.
- Secure, efficient and environment friendly.
- An economic and compact supplement for bulky document shredders.
- Adaptable to individual requirements.
- Fully automated operation.

Ideally suited for destruction of documents, files, production waste, pet bottles, packaging material etc. and are extensively used in defense, corporate and universities.

Intimus Power Range

Model Name	14.95	16.5
Security Level	1	3
Cutting size paper (mm)	11.8 mm	6 x 50 mm
Cutting capacity (70 g / m ²):	200 - 210 sheets	300 - 330 sheets
Cutting speed (m/sec.) :	0.28 m/ sec	0.24 m/sec
Working width (mm):	450	500 mm
Catch basket volume (l):	2001	4501
Noise level (db (A))	68 db (A)	74 db (A)
Dimensions (WxDxH)	80 cm x 167 x 120	120 x 195 x 155

Intimus Crypto – Where security comes first!

Our novel media shredders, the Intimus Crypto series work efficiently to destroy physical data in a highly secured manner maintaining the highest security levels. These can also destroy end point devices and portable devices such as DVDs, Blu Ray Discs and external Hard Disk Drives. These shredders are available in security levels as high as level 4, level 5 and even level 6!

Key Benefits:-

- Turns paper virtually into particles as small as dirt!
- Destroys all kinds of hard drives / digital media irrespective of their size, operating system or interface.

Model Name	Intimus VZ 14.00/5
Cutting size paper (mm)	2 x 4.5 mm
Cutting capacity (70g/m ²):	90 - 100 sheets
Cutting capacity (80 g / m ²):	80 - 90 sheets
Cutting speed (m/sec.) :	0.24 m/sec.
Working width (mm):	500 mm
Power consumption (kW):	11.3 kW
Supply voltage (Volt):	400 Volt
Noise Level (db (A)):	74 db (A)
Weight gross (kg):	1580 kg
Weight net (kg):	1370 kg
Width (cm):	120cm
Depth (cm) :	305 cm
Height (cm):	168 cm
In operation - depth cm :	366

Intimus Disintegrator & Dual Shaft Disintegrator

The Intimus Disintegrator is exclusively designed as a complete solution to shred sensitive media such as credit cards, currency notes and critical paper documents and related types of media.

The tool ensures efficient feeding and maximum throughput while working with such delicate media. It can work easily by installing a screen with a different mesh size; further, the shred size of the machine can be easily adapted as per respective demands.

Key Features of Intimus Disintegrator & Dual Shaft Disintegrator

- Large and solid bearings.
- Wide opening milling chamber for perfect access to all knives with fast and convenient adjustment or exchange of knives.
- Easy access to the milling chamber.
- Can be opened without tools.
- Easy to clean.
- Secured with safety interlock.
- Saves time and effort.

Model Intimus	9 Models
Throughput (kg/h at 4 mm)	50 up to 1,250
Feed opening size (mm)	130 up to 1,270
Screen size (mm)	4 standard / option 2 up to 20
Power consumption (kw)	1.5 up to 75
Power supply (volts)	230/50 1PH / 400/50 3PH
Number of blades (rotor / bed)	3 up to 5 / 2
Knife layout	single plus dual " Diagonal Cut"
Noise level	< 80 db (A)
Dimensions (L/W/H approx.cm)	79/64/125 up to 254/125/348
Weight (approx. kg)	230 up to 4,100

“ Data Security
must be your
first priority ”

Intimus Dual Shaft Disintegrator

Often data storage devices have the potential to turn into “information bombs” once they become obsolete and are out of work. The simplest way to manage secure and fast, economic destruction that provides a visual proof for the successful destruction is **shredding the HDDs or other media to pieces**. The shredding process works on their magnetic field and leaves no probability of data retrieval from any of these devices.

In case of ultra sensitive data that is worked upon in private industries and government, the highest security requirements apply. The main aim of the security requirements in this area is to prevent any data restoration. The unique Intimus Dual Shaft Disintegrator’s performance in this arena is incomparable and currently is in huge demand from secret services and government agencies that require the highest level of security.

Key Benefits:-

- Fully automatic function control.
- Convenient collection of the shreds in a commercial wheelie bin.
- Maximum operational safety through limit switch at the door and top cover.

Grinding µm :	6, 8 or 10 mm (depending on screen size)
Capacity (envelopes/ min)	Approx. 22 units 3.5” HDD at 6 mm h
Cutting zone (mm):	380 x 500 mm
Motor Power kW:	4.0 kW
Control:	Moeller easy 512 PLC
Noise Level (db (A)):	82 db (A)
Supply voltage (Volt):	400 Volt
Width (cm):	130 cm
Depth (cm):	130 cm
Height (cm):	208 cm

“Pitney Bowes –
The perfect reflection
of secured destruction”
